Towergate Equine insurance

Over 20 years, Towergate Equine has developed products with a range of specialist insurers and providers which can provide horse insurance and other equine and rural related requirements.

People and products that make a tangible difference

The Equine team have been carefully selected because of their equine knowledge and expertise. They care about their own horses and apply that same care to the horses we insure for your clients.

Accidents and incidents happen. Towergate specialists are on hand to assist with the complexities in arranging the right cover for your client. They will also help with the claim process because they understand what needs doing and when.

Product need

Listening to your clients' requirements, we can liaise with specialist underwriters and highlight the risk of gaps in cover, and, negotiate to have restrictions re-examined and even withdrawn or pinpointed to certain areas. We deliver a policy for your client's requirements which plugs any reasonable gap and exclusion

Our team's horsey knowledge and confidence can help you win more business.

Target market

For anyone who is connected to a 'horsey' lifestyle. Especially your company directors with an involvement in a pony club, with stables on their land, transporting their horses around in high end horseboxes and trailers. We can cover most trades, including breeders
